The Jenton Group

Our Vision

We will continue to make good business by designing and supplying reliable, appropriate, successful and, where necessary, innovative automation related equipment – and offer support for it - that improves the efficiency and value of our customers' businesses and provides a long-term secure future for our company and our employees.

Our Mission

We will invest prudently in our people, products and services in order than we can manufacture and supply industrial automation equipment and services to customers in a variety of markets;

- on time,
- using innovation and efficient design,
- within budget,
- sustainably,
- in an environmentally responsible manner,
- which meet or exceed specifications.
