

POWERSLIDE – AUTOMATIC PAD CUTTER AND PLACER

JENTON
ariana

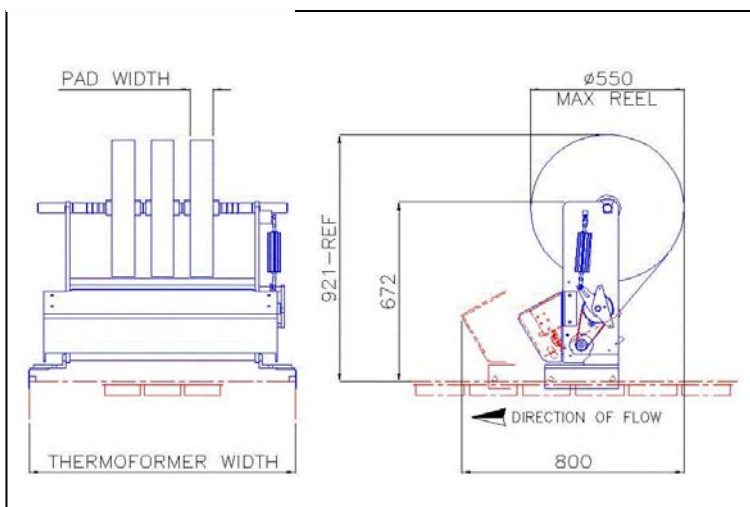

The **Jenton-Ariana** Pad Cutter automatically feeds from a roll, cuts and places absorbent "Peach Pads" into pre-formed trays on a thermoformer or tray sealer up to 150 packs/min. Easily changed between lane configurations and any length of pad. Capable of multi-row and deep pod placing. Main applications include **red meat, cheese, poultry, fish and fresh produce**. Options include - free-standing units for placement over preformed tray conveyor lines, Dri-loc™ and moisture barrier webs.

The Pad Cutter benefits:

- Great cost-reducing potential through the use roll stock instead of ready cut pads.
- Reduced stock of different pad sizes.
- Extremely easy operation.
- Considerably more hygienic than manual placement.
- Significantly lower personnel expenditure
- Roll size to suit production shift length

The system uses PLC control and is constructed in stainless steel with IP65 waterproof protection.

DIMENSIONS

SPECIFICATIONS

Automatic Pad Cutter/Placer	
Packing speed	Up to 150 pads/min
Pad size range	Thickness: 25 micron – 3mm Width: 20mm – 580mm Length: 40mm – 580mm
Protection	IP65
Machine weight	65kg
Power supply	AC 200-240v 50Hz 4A
Air supply	4bar 10 L/min (free air)
