# Two brands – maximum options

## **Emplex – by Plexpack** (Canada)

Bench, floor standing, integrated bag sealers for individual bags and pouches.

## **Pronova** (Sweden)

Inventors and innovators of the JOKER® concept.

Automatic bag feed for hand or automated filling.

*These two ranges give every option from when a simple hand sealer is no longer enough. Many options from small bench top units to automated feed and fill systems. Dry goods, medical, and food.*

Static bench top and floor standing sealers for sealing of individual bags with vacuum and gas flush.

Bench top and floor standing hand fed Continuous band sealers for bags and pouches. Vacuum and gas flush possible also. (conveyorised for heavier items)

In 1980, Pronova invented a unique packaging concept named JOKER®. Since then they have manufactured packaging machines and linked bags to create a cost efficient and automated packaging system

# Bags and Pouches

LDPE, Laminates, Doybags, zipper and even plastic free.

Bags by:

Bags and pouches for JOKER® are made by Supreme Plastics in Whitby, UK

**EARTHPOUCH/PLASTIC-FREE RECYCLABLE & SUSTAINABLE STAND-UP PACKAGING POUCH**
